

Superdry 24V DC

The Superdry 24V is a high-performance LED module designed for commercial signage and lightbox applications. Its fully encapsulated, IP68-rated construction provides superior protection against dust and moisture, making it suitable for demanding outdoor environments. The robust design ensures sustained lumen performance and long-term reliability in large-scale installations.

Product Overview

	Power Output 0.72 W		Lumens 70 lm / Module
	Colours Available 3000K, 6500K		Module Dimensions 71mm x 12mm x 10mm
	Lightspace 80 - 150mm		Ingress Protection IP68
	Warranty 8 Years		Max Series 90 Modules
	Operating Temp -25° + 55°C		Packaging 90 Modules / Pack
